UI/ Web Designer (Remote)

Cool Cats Group LLC are looking for a full-time experienced UI/ Web Designer to join our expanding team.

Cool Cats Group LLC is one of the top NFT's in the space and is considered a Blue Chip NFT company. It is a leader in its field, bringing innovative utility and gamification to the NFT market. Launched in July of 2021, this is a fast growing and ever-expanding company filled with individuals who are passionate about the growth and expansion of the Cool Cats universe.

Cool Cats are a family friendly NFT with a focus on community and functionality. You will be working with a team of creative and driven individuals with a variety of skill sets. We value positive communication and collaboration within the team within an established remote working environment.

The right individual will have at least three years Web Design experience. Confident in producing clean, high quality, cute looking UIs for our website and future gamification projects.

Experience with NFT's and/or a sound knowledge of Non-fungible Tokens is desirable.

The role will include the following responsibilities:

- Conceptualize and formulate fun and quirky UI that can facilitate required functionality.
- Work very closely with the dev team on projects.
- Champion and embody the unique values and tone of Cool Cats Group LLC.

Desirable Skills

- Experience designing game UI.

We use the following software:

- Slack.
- Jira.
- Google Drive.
- Webstorm
- Github

Cool Cats Group LLC will offer the right candidate competitive market rates of pay with the possibility of bonuses and equity ownership in the company. We look forward to hearing from you and welcoming you to the team.
